NEW SON FOR LIZ—Actress Elizabeth Taylor holds Christos, 3-year Edward VIII, born February 27, 1952, as she and infant pose for their first picture together.

NEW FASHIONS ARE REALLY GLOVEY—Clothes ring of black eyes, left, dominates 15-button-length hidden gloves as rings come out in the open on the season. Gloves, now being modeled in New York City, feature all the new with three giant buttons. At right, short-sleeved, 15-button gloves are speckled with heart-and-arrow applique. Many gowns, many styles of applique make this fashion highlight a dead-weight-to-please innovation.

ACTOR CHARLES BAXTER is shown in New York with his bride, Lorraine, sister of much-loved Tommy Handley. Marriage in Las Vegas was the bride's fourth.

ALL-WEATHER HATS AND MATCHING HANDBAGS are being introduced in North America for the first time by Modella, made of tough and water-repellent fabric. The accessories can be cleaned with a damp cloth. The rubber-like hat and handbag are made of fabric vinyl shooting in a Winter trend pattern.

PRESENTING A NEW FLAG DESIGN—This new flag, designed by Toronto architect H. W. Brad-Todd, left, is reported to have favorably impressed Prime Minister Louis St. Laurent. The flag shows royal arms of gold on red, gold fleur-de-lis on blue and three maple leaves on a white field. Mr. Brad-Todd has made a special study of heraldry.

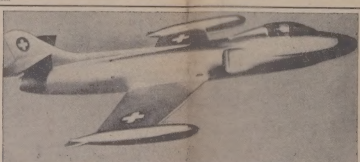

HERN ERNESTINE RUSSELL, the Windsor, Ont., 6-year-old who swept to the all-round title in the United States Championships at Rochester recently. The expert on the paring bar is above action.

HAND-IN-GLOVE WITH DO-IT-YOURSELF—Kitchen telephone comes in plastic front and finger tips, have matching push-button closing. Flowers are imported, artificial blossoms in master arrangements, which the ladies may serve on to match their hats or other accessories.

AFRANCO DE YELLO FRANCO arrives in Ottawa with his wife. He takes up duties as Brazilian ambassador. He replaces Rector Ryan, named envoy to Portugal.

MADE IN SWITZERLAND—The T-36, shown in model form, above, is the first 30 percent plane to bear the "Made in Switzerland" label. Its wing shape, air-intake placement and jackknife landing gear running from tail assembly to fin are the plane's "brain"—it tracks the enemy with its electronic equipment.

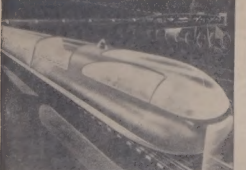

INSPIRED BY USAF

THE ATOMIC-POWERED car of the future which may be equipped with electronic devices, steering the driver to road conditions ahead.

BARNYARD FOR THE YAKS, 40, showing the equipment children use in Eastern Tibet, as he rounds the turn in a blind-chicken gambling marathon. He has it wrong, but he won't let himself.

THE RAILROAD industry predicts that it is the not-too-distant future passenger train will look like this. These sketches, being shown at the 43rd annual meeting of the Chamber of Commerce of the U.S., are by industrial designers.
